# Monday

- Don't focus on your position focus on your passion.
- Build relationships, whether with communities or individuals- love like the Creator.
- Bring your genuine authentic self and be ready to learn.
- Whatever you lean toward, it will lean back.
- March in your own shoes, and
- Remember to keep your balance.

Mr. Chance Rush

# Breakouts

- Better using poison control services
- Partnerships to Improve Air Quality, and
- Tribal Opioid Response Resources
  - Emergency declaration template
  - Standing orders for Naloxone

# Cross Sector Collaboration to enhance safety in climate impacted, smoke-intensive futures

- Round tables focused on sharing disaster experiences, stories of success and identifying opportunities for collaboration

# Tuesday

- Reviewed the development and growth of the Idaho Tribes and the Public Health Learning and Action Network
- Moving beyond traditional public health practice
- Benefits of working together to protect the health of all Idaho residents
- The concept of knowing each other and capacities prior to emergencies was emphasized.

- *FEMA Reforms*
- *Enhancing Response through Portable Air Cleaner Distribution – the Washington Example*

# Breakouts

A scenic view of a river flowing through a forested area. The river is surrounded by lush green trees and vegetation. In the foreground, several large, weathered logs are partially submerged in the water, creating a natural barrier. The riverbank is composed of numerous small, smooth stones and pebbles. The sky is overcast with grey clouds.

- A guide to Activating the Regional and State Chempack Assets was discussed
- Conceptualization of a Tribal Jurisdiction Risk Assessment Tool
- The Center for Disaster Resilient Communities: Using Research to Support Tribal Disaster Resilience (UW work with tribal representatives)
- WRAP-EM Wildfire Response to the Children of Maui
- Childhood Lead Poisoning Prevention Program in Washington.

# Tribal Caucuses and Fireside Chats

Planning ways forward  
together.

# Wednesday

- Conversation with the Washington DOH Office of Medical Logistics
  - Getting things to those who need them.
  - State vs National MRC program discussed.
  - Engagement with water serving tribes, especially in border areas.
- Emergency Medical Reserve Corps

# Breakout Sessions

- A dive into effective documentation and disposition strategies
- PHEP Tribal Engagement Criteria Requirements
- Climate Adaptations and Tribal Resiliency
- Enhancing Tribal/Urban Indian Access to the Strategic National Stockpile
- Home Burial Process
- Impact of Climate Change and the Mental Health Effects on our depleting Traditional Foods
- Food Safety During an Emergency Response
- Good Process Leads to Good Preparedness
- Oregon Energy Security Plan

# Wednesday

- Entering a relationship with another person (or community) with the intention of honoring their beliefs, customs, and values sacred.
- Tribes and Native American people are resilient and have overcome many past events.
- Continue to work with heart and do the best for all people.

Space for your  
Comments and  
Ideas for Next  
Year.
